Qiang Chen is Professor of Finance at the School of Economics, Shanghai University of Finance and Economics. He obtained his Ph.D. from Shanghai Jiao Tong University in 2014 and joined SUFE the same year. His research spans financial econometrics, financial engineering, market microstructure, macro-finance and FinTech.

He has led several projects funded by the National Natural Science Foundation of China and other provincial or ministerial projects, and has published 36 peer-reviewed articles—17 in English-language journals—including the Journal of Econometrics, Journal of Financial Econometrics, Journal of Financial Markets, Journal of Futures Markets, Journal of International Money and Finance, International Review of Economics & Finance, Econometric Reviews, Economic Modelling, Canadian Journal of Statistics and China Finance Review International.

Professor Chen serves as a referee for the Journal of Econometrics, Journal of Financial Econometrics, Econometric Reviews, Journal of International Money and Finance, Economic Modelling, China Finance Review International, Frontiers of Economics in China, and numerous domestic journals.
